They are furnished with two tinct non-conducting chambers, by means of which, we pounds of ice to the gallon, water is kept (at a temper ture of 40 degrees below zero, or only 8 degrees about the freezing point) all day. Dean Sig.: I have been afflicted for twenty-three years with Riceding Piles; for the last fifteen years I have been unable to work; during this time I have spert more than one hundred dollars with doctors, but they falled to relieve me. I used a great many remedies, among them the Mexican Mustang Liniment, but none of them did me any good.
